GREEN BUSINESS CHALLENGE

ENERGY EDITION

Time to Power Up

Ready to dive into the energy transition and tackle real challenges for real companies? Join an epic road trip through the North of the Netherlands while building new skills, friendships and career opportunities. Applications are open for ambitious young professionals from diverse backgrounds who want to be part of this action-packed impact event.

Get ready for an energetic six-day hackathon packed with fresh ideas and inspiring insights. More than thirty young professionals will work on real-life business cases.

What's it about?

- Tackle real energy challenges for real companies and organizations.
- Collaborate with diverse young professionals to create innovative energy solutions.
- Make impact on the energy transition during an intense, six-day hackathon.

Who we're looking for

We need ambitious young professionals. Whether your background is in business administration, engineering, law, psychology, marketing, or any other field. If you are passionate about sustainability and innovation, you are more than welcome!

Why join?

- ⚡ Work on real cases for real clients
- ⚡ Boost your skills & career opportunities
- ⚡ Meet like-minded changemakers
- ⚡ Explore the North in an exciting challenge

When: 17 - 22 May 2026
